CAREER OUTLOOK

<https://myfuture.com/career/hairdressers-hairstylists-and-cosmetologis>

Overall employment of barbers, hair stylists, and cosmetologists is projected to grow 11 percent from 2021 to 2031, much faster than the average for all occupations. About 93,800 openings for barbers, hair stylists, and cosmetologists are projected each year, on average, over the decade. Many of those openings are expected to result from the need to replace workers who transfer to different occupations or exit the labor force, such as to retire.

<https://www.bls.gov/ooh/personal-care-and-service/barbers-hairstylists-and-cosmetologists.htm>

JOB PROSPECTS: Overall job opportunities are expected to be good. A large number of job openings will stem from the need to replace workers who transfer to other occupations, retire, or leave the occupation for other reasons. However, workers should expect strong competition for jobs and clients at higher paying salons, of which there are relatively few and for which applicants must compete with a large pool of experienced hairstylists and cosmetologists.

<https://www.bls.gov/ooh/personal-care-and-service/mobile/barbers-hairstylists-and-cosmetologists.htm>

Employment of skin care specialists is projected to grow 11 percent from 2018 to 2028, much faster than the average for all occupations. The desire among many women and a growing number of men to reduce the effects of aging will result in employment growth. Good job opportunities are expected: <https://www.bls.gov/ooh/personal-care-and-service/skincare-specialists.htm>

CAREER EARNINGS

The income in this industry depends on a broad range of factors such as: geographic location; i.e, state, area, population, size of the salon, personal ability to create and retain clients, work hours, etc. Some more information can be found on the Bureau of Labor Statistics website: <https://www.bls.gov/oes/current/oes395012.htm#ind>

CONTINUING EDUCATION REQUIREMENTS

The beauty industry is changing every day. Keeping up with the latest techniques and experiences is a fundamental necessity of this industry. Continuing education is a state requirement and varies from state to state. The State of Illinois requires 24 hours of continuing education every two years for a cosmetologist to maintain their license, the State of Illinois requires 10 hours of continuing education every two years for barbers. We do offer advanced training hours at our Crystal Lake and Schaumburg location. For more information about the advanced training opportunities, please visit our web page: <https://cosmetologyandspaacademy.edu/>

Additional information on continuing education can be found at: <https://www.bls.gov/ooh/personal-care-and-service/barbers-hairdressers-and-cosmetologists.htm> <http://continuingcosmetology.com/onlinecourses/Illinois/PDF/howmanyhours.pdf>

INDUSTRY PHYSICAL AND SAFETY DEMANDS

Exciting opportunities await you in the beauty industry. Professionals in the beauty industry provide hair, skin and nail services to enhance their client's appearance. The beauty industry is best suited for persons who are in good to excellent health condition. It is our goal to teach our students all skills necessary for success in the beauty industry. It is critical for the applicant to understand that many products are used during the educational process and in the field that may contain chemicals to which a person may be sensitive. It is, however, a fundamental requirement of these programs to use and demonstrate services with the utilization of only the products carried by the school, both in the classroom, as well as during clinical work.

Physical Demands: Stylists and Estheticians by the very nature of what they do are required to spend long hours standing, sitting, bending, reaching and performing repetitive motions. For example: holding the arm and hand in one position while, at other times, keeping the hand steady while moving the arm. Stylists and estheticians should be able to lift up to 30lbs. Estheticians must perform and demonstrate the full range of Esthetic-related services standard within the skin care industry (e.g., facial and body skin care with massage, facial and body waxing, and makeup application), view details of objects within arm's length and discern the difference between colors, shade, and brightness within and between those objects. Stylists must perform and demonstrate the full range of hair-related services standard within the cosmetology industry (e.g., shampoo with massage, comb, haircut, hairstyle, hair color and chemical texturing, braid, sculpt, hair dry, etc.), perform and demonstrate the full range of nail related services (e.g., file, buff, clip, clean, and apply polish to nails and attach artificial nail products).

An important part of our education is to teach students that developing good habits at the beginning of training will help prevent injury and health issues in the future. Students must enjoy working with the public and be able to follow a client's directions. The student must be able to communicate well with another person and speak clearly to be understood. A student must be willing and able to work long hours to build a personal clientele to earn the desired salary. A student must be able to read, write and speak fluently.

Safety: Students must wear an enclosed, supportive, protective pair of shoes and adhere to changes in the law. The state is not required directly to notify any person or entity of variations in the law and changes to standards.

LICENSURE REQUIREMENTS

The State of Illinois requires cosmetologists, estheticians, nail technicians and barbers to have a valid license in order to practice their profession legally. Each State in the U.S. has different licensing requirements. Licensure and Endorsement information may be obtained by contacting the admissions office at any location during regular business hours. More information can be found at: www.idfpr.com

CLARIFICATION ON HIGH SCHOOL DIPLOMA /GED

NACCAS, our accrediting agency, recognizes several equivalent to a high school diploma:

- A GED: A certificate demonstrating that the student has passed a state-authorized examination that the state recognizes as the equivalent of a high school diploma;
- An academic transcript with a clear Graduation Date of a student who has successfully completed at least a two-year program that is acceptable for full credit toward a bachelor's degree. For associate degree Programs: A student who enrolls in a program that leads to an associate degree or its equivalent in lieu of completing high school, a high school transcript must be presented indicating the student has excelled in high school. In addition, the student must no longer be enrolled in high school and must satisfy the school's written policy for admitting such students prior to the first day of class. We do follow NACCAS policy in this regard.

TRANSFER CREDIT

The Cosmetology and Spa Academy does not recruit students already attending or admitted to another college offering a similar program of study. A transfer student will be required to meet the published admissions requirements and should refer to the Illinois Cosmetology, Barber, and Estheticians Laws for current transfer procedures. Students who transfer their hours of training earned from another beauty school into the Cosmetology or Barber program, must complete at least 900 training hours at CSA Academy, and 350 hours for the Esthetic program, unless other arrangements are made with the Financial Aid Director. Hours must be submitted to the school before enrollment. Transfer hours that are accepted count as both attempted and

completed hours. The student must have an official transcript from the licensed former school to receive credit for the transfer hours. Cosmetology and Spa Academy reserves the right to test the applicant before admitting the credit hours in part or all practical skills if found necessary. Cosmetology and Spa Academy reserves the right to request the student buy additional kit supplies if it is found necessary for the student to participate successfully in the program. The decision of Cosmetology and Spa Academy is final. Cosmetology Instructor transfers will be evaluated on a case-by-case basis.

RE-ENTRY REQUIREMENTS

Former students of Cosmetology and Spa Academy who wish to re-enroll require approval from the administration by contacting the Admissions Office. Former students must re-enter within at least three years (calendar year) to be able to get full credit for their hours earned during their last enrollment. Application will be reviewed, and a decision will be made within seven days of the request. Re-enrollment is not guaranteed and will be determined on a case-by-case basis. Students who re-enroll within 30 days of the original exit date will be charged the same tuition and fees as detailed in their original enrollment agreement. All previous payments will be credited to the student's account, as well as any refunds made as a result of the withdrawal. Students who re-enroll more than 30 days after the original exit date may be evaluated scholastically in the same manner as a transfer student to determine class level assignment. Any previous balance from prior enrollments with Cosmetology and Spa Academy must be paid in full before the student may re-enroll unless the financial office approves tuition adjustments. Current tuition and fees will apply at the time of re-enrollment as well as a dropping fee from previous enrollment agreement. Students will come back to the same status as when regarding leave of absence, Satisfactory Academic Progress, personal time status, attendance status, academics status, etc. This policy applies to all programs offered at Cosmetology and Spa Academy at all locations.

Students may only re-enter into a different location of Cosmetology and Spa Academy once within a twelve-month period. Incomplete graduates must re-enroll. All payments must be complete before any training starts unless other agreements have been made with the Financial Office.

HIGH SCHOOL VERIFICATION PROCEDURES

If there is a question about the validity of the diploma, GED certificate, or equivalent, Cosmetology and Spa Academy has the right to ask for further proof. If you need help verifying a GED, you can contact the Illinois GED Administrator of the Illinois Community College Board in Springfield, IL (847-328-9795) or visit the website, www.acenet.edu. There is no appeal process for students if Cosmetology and Spa Academy determines the high school diploma to be invalid.

ATB VALIDATION

The definition of an ability-to-benefit student is a student who is beyond the age of compulsory education, lacks a high school diploma or its equivalent, and can benefit from the education or training offered at the institution. Cosmetology and Spa Academy does not accept ATB students.

DISABILITIES AND ACCOMMODATION

Cosmetology and Spa Academy is committed to ensuring no qualified physically challenged person, because of his or her handicap, will be excluded from enrolling during instruction or be subjected to discrimination based upon disability. Applicants who are persons with disabilities, as defined in paragraph 104.3(j) of the regulation under Section 504 of the Rehabilitation Act of 1973, may apply for admittance to the program. However, all prospective students must meet standard admissions requirements.

Cosmetology and Spa Academy does not formally assess students under the standards of a traditional 504 plan (IEP/other). If an applicant for enrollment believes he or she may need accommodation during his or her program, he or she should advise the Director of one of Cosmetology and Spa Academy locations before the class starts and must submit a written request for specific accommodation(s). The written request must include documentation of the student's official assessment (for example, an Individual Education Program (IEP) from the student's high school) and outline the specific accommodation(s) requested. Reasonable accommodation plans determined after the program start will be effective from the date determined moving forward.

All requests for accommodation will be reviewed by the Academy's President and Board of Directors, and a determination of reasonable accommodations (if applicable) will be provided in writing before the start of the student's program and within four weeks of the official request for currently enrolled students. Due to state licensing requirements and rigorous industry standards that are in place to protect the public, all students are required to meet the academic standards outlined in the most current student catalog.

Phase 1: Consists of the classroom phase, Freshman Level Evaluation, Theory, and Practical Lesson Series. The content of the Freshman Level: Classroom phase is broken down into women's haircutting, men's haircutting and hair design, long hair, spa, and color/chemicals in various hands-on lesson series. Students are required to attend theory class once a week. Each week, students are tested on the previous week's chapter then lectured on a new chapter. The student is tested at the end of each chapter lesson. Additionally at the end of each hands-on series the student will be tested practically on the applications learned. These lessons in theory and practical must be passed with a minimum of 75% to be considered a completed series and to be eligible to move on in their training.

Phase 2: Student Clinic Phase Junior Level Evaluation and Senior Level Evaluation: Students will be perfecting their skills in the practical clinic for the remainder of their training. During this time, students will be practicing all practical lessons learned in the first part of their education. Weekly, the instructor will hold a progressive learning demonstration to advance and review techniques. After each service or application performed the student will be graded on the application by an instructor. Theory will continue in this phase as applicable and will continue to review theory lessons.

JUNIOR & SENIOR LEVEL -over 450 hours – 1500 hours Clinic Phase

JUNIOR AND SENIOR LEVEL Evaluation: Student Clinic (900- 1100 hours and 1400- 1500 hours): Students will be perfecting their skills in the practical clinic for the remainder of their training. During this time, students will be practicing all practical lessons learned in the first part of their education. Weekly, the instructor will hold a progressive learning demonstration to advance and review techniques. After each service or application performed the student will be graded on the application by an instructor. Theory will continue in this phase as applicable and will continue to review theory lessons.

Methods of Instructions: The instructors use multiple methods of teaching to engage all types of learners including auditory, visual and hands on learning.

Lecture Method: For each theory class the instructor begins with a lecture of the chapter. The students are advised to highlight and take notes along with the instructor’s lecture for ease of studying. Every week the student is tested on the previous week’s chapter and has a new chapter.

Visual Method: Projects such as posters, sculptures, or research projects are used for students to complete to help those that benefit from hands-on learning. The instructors are also encouraged to write key points on the board or use a PowerPoint to engage the visual learner. These projects also allow for a break from lectures and actively involve the students.

Feedback Method: Students are encouraged to ask questions when the instructors initiate a question/answer session for the students. We encourage instructors to engage students with games and activities that students may participate in. The following week students are then tested on the information from the chapter they previously learned.

Practical Method: In practical classes, students are first given theory information that is needed to perform the procedure such as contraindications and prime candidates for the practical procedure. (If it correlates to a chapter, it will be taught during theory time.) Next, students use the materials needed and follow practical procedures that the instructor emailed to the students prior to class. This method uses multiple methods of learning to engage all types of learners, including auditory, visual, and hands on learners. During this phase, the student will use products that are part of the classroom kit and supplies which students must purchase before the first day of school.

Hands On: The students pair up and perform the procedures on each other in class. The instructor can closely monitor their performance and critique it prior to laboratory time. The students will be evaluated and graded. If the student does not pass, they can either correct what was done incorrectly or continue to perform the practical procedure and work on laboratory assignments. If the students are not able to perform the service on each other at that time, they will not proceed. During this phase of the program, the student will be using products and supplies that are available at the clinic floor.

Grading Procedures: The grading scale is used to grade all theory and practical applications.

Excellent: A 93 %- 100%; Very Good: B 85 %- 92 %; Satisfactory C 75 % - 84 %; Unsatisfactory F 74% and Below

Methods of grading and required level of achievement: Students are required to attend all theory classes and demonstrations that are part of the required curriculum. Once the student has completed the theory and demonstration classes the students will be evaluated for competency of theory by written

tests. After completing each theory class, students must pass with a 75% or higher to move on with their education. Students are evaluated on their practical competency and attendance at the end of each series to determine if they are ready to move on to the next teaching series. If the students do not pass the evaluation, the instructor may require that the student repeat the series if they failed to complete their education. Once the student successfully passes all their series with a minimum of 75%, they may move onto the clinic portion of their training. Students must finish theory tests with a minimum of 75%. If the student does not pass a practical portion of the testing, they may not perform these services on clients until they have passed.

If the student purchases the kit from the school, the student will receive a kit in parts based on training level of education. The kit is property of the school and must stay in the school facility till the student reaches graduation time. Lost or damaged equipment/supplies will be replaced by students at their own cost. The kit fee is non-refundable in any case and is charged at the first payment period of each program. Options for covering the cost of the kit are discussed in a financial meeting before the student begins training. Sales tax will be applied to the cost of books and supplies and may vary due to State Tax law changes. Due to constant improvements in the beauty industry, kit contents are subject to change without notice.

Method of Instruction: The student instructors do not go through lecture methods. Cosmetology and Spa Academy’s teaching method for the Student Instructor program is Milady Master Educator Education. This method does not include classroom lecture time for the student instructor. Instead, we host sessions of instruction with the student instructor where they will do teach-backs to other staff members for constructive criticism. The student instructor will also create lesson plans and take Master Educator Exams throughout their training.

Lecture Method: The student instructor is required to periodically teach theory lectures from Milady. This class must have a lesson plan submitted to the instructor to look over. While performing your theory lecture, you will be assessed by your instructor with feedback for improvement.

Visual Method: The student instructor will be observing the instructor teaching academically and practically.

Practical Method: The student instructor is required to have at least 2-3 mannequin heads to practice on. The practice must be done in the classroom under the supervision of an instructor. The student instructor is encouraged to keep an open dialog with the manager of the campus and ask any questions that they may have during their training.

Feedback Method: The student instructor is encouraged to ask questions and the instructors initiate a question/answer session for their learning. We encourage instructors to engage the student instructor to lead games and activities that all students will participate in, supervised by the instructor.

Hands On: The student is required to periodically give practical demonstrations. This class must have a lesson plan submitted to the instructor to look over. While performing your practical demonstration, you will be assessed by your instructor with feedback for improvement.

Grading Procedure: The grading scale is used to grade all theory and practical applications: **Excellent: A** 93%- 100%; **Very Good: B** 85%- 92 %, **Satisfactory: C** 75% - 84%, **Unsatisfactory: F** 74% and below.

Method of grading and required level of achievement: Student instructors are required to attend all classes of the theory and be prepared with lesson plans for them. Student instructors will be tested on all theories and evaluated by the manager. The practical portion will be tested on by the instructor with whom the student instructor is assigned to teach a theory class. The minimum required is 75% on all tests. Junior and Senior Level: Student Clinic (till 1100 hours and 1400 - 1500 hours): Students will be perfecting their skills on the practical clinic for the remaining time for their training. During this time the students will be practicing all practical lessons learned in the above series. Weekly the instructor will hold a progressive learning demonstration to advance and review techniques. After each service or application performed the student will be graded on the application by an instructor.

Methods of Instructions: The instructors use multiple methods of learning to engage all types of learners including auditory, visual and hands on learners.

Lecture Method: For each theory class the instructor begins with a lecture of the chapter. The students are advised to highlight and take notes along with the instructor's lecture for ease of studying. Every week the student is tested on the previous week's chapter and has a theory lecture of a new chapter.

Visual Method: Projects such as posters, sculptures, or research projects are created for some theory work for students to complete in order to help students that benefit from hands-on learning. The instructors are also encouraged to write key points on the board or use PowerPoint to engage the visual learner. These projects also allow for a break from lectures and actively involve the students.

Feedback Method: The students are encouraged to ask questions and the instructors initiate a question/answer session for the students. We encourage instructors to engage students with games and activities that all students may participate in. The following week the students are tested on information from the chapter they just learned.

Practical Method: In practical classes, the student is first given any theory information that is needed to perform the procedure such as contraindications and prime candidates for the practical procedure. (If it correlates to a chapter, it will be taught during theory time.) Next, the student uses the materials needed and practical procedures that the instructor emailed to the students prior to class, using multiple methods of teaching to engage all types of learners including auditory, visual and hands-on learners. During this phase, the student will use the products that are part of the classroom kit and supplies which students must purchase before the first day of school.

Hands On: The students pair up and perform the procedures on each other in class so the instructor can closely monitor their performance and critique it prior to laboratory time. If the students are not able to perform the service on each other at that time, then they will proceed. The students will then be evaluated and graded so the students can either correct what was done incorrectly or continue to perform the practical procedure and work on laboratory assignments. During this phase of the program, the student will be using the products and supplies that are available on the clinic floor.

Grading Procedures: The grading scale is used to grade all theory and practical applications. **Excellent: A** 93%- 100%, **Very Good: B** 85%- 92%, **Satisfactory: C** 75%-84 %; **Unsatisfactory: F** 74% and below

Methods of grading and required level of achievement: Students are required to attend all theory classes and demonstrations that are part of the required curriculum. Once the student has completed the theory and demonstration classes, the students will be evaluated for competency of theory by written

tests and must pass with a 75% to move on with their education. Students are evaluated on their practical competency at the end of the class to determine if they are ready to move on to the student clinic. If the student does pass the evaluation, the instructor may

require that the student repeat the failed technique in order to complete their education. Once the student successfully passes all of their classroom training and theory tests with a minimum of 75%, they may move onto the student clinic portion of their training. If the student does not pass a practical portion of the testing, they may not perform those services on clients until they have passed.

The request must include the student's reason for the LOA; and c. the request must include the student's signature. The institution may grant an LOA to a student who did not provide the request prior to the LOA due to unforeseen circumstances if – the institution documents the reason for its decision; The institution collects the request from the student at a later date; and the institution establishes the start date of the approved LOA as the first date the student was unable to attend. A student will not be assessed for any additional charges because of a requested LOA. The student will not be granted a LOA if the LOA, together with any additional LOA's previously granted, exceed a total of 180 calendar days in any 12-month period. A student granted a LOA in accordance with the institution's policy is not considered to have withdrawn and no refund calculation is required at that time. The student's contract period will be extended by the same number of calendar days taken in the LOA and such changes to the contract period must be either-a. changes to the enrollment agreement will be initiated by all parties; or b. an addendum to the enrollment agreement must be signed by all parties. The student will be withdrawn if the student takes an unapproved LOA or does not return by the expiration of an approved LOA and that either – a. (at an institution required to take attendance) the student's withdrawal date for the purpose of calculating a refund will be the student's last date of attendance; or if a student uses an LOA during the enrollment agreement the student understands that any scholarship received will be null and void.

b. (an institution not required to take attendance) the student's withdrawal date for the purpose of calculating a refund will be the date the student began the LOA. *Summary of Deadline for Filing a Request:* The student must send the request to the Director of the location There is no LOA offered for the first 30 days of training unless there is an emergency. A student who fails to follow the LOA application procedure will be considered withdrawn from the program by withdrawing policy. Any student approved for a temporary leave of absence will not have the interruption in training counted against him/her, compliance with satisfactory progress guidelines. However, a leave of absence will extend the student's contract period and maximum time frame by the same number of calendar days taken for the leave of absence. The minimum time frame for a leave of absence is two weeks; the maximum amount of LOA is up to 60 calendar days for the full program where the student is enrolled. A student may request a maximum of two separate LOA's and the total number of LOA's cannot exceed 60 calendar days. An immediate extension of an approved LOA will not be counted as a second request. The Academy reserves the right to accept LOA for up to 180 days if there is a case of a health situation (pregnancy, surgery, emergency, etc.) This case must be documented, and the Academy may grant a leave of absence for up to 180 days within a 12 month period. Students that are not in SAP will meet with the manager of campus to discuss their progress status and plan their progress. The frequency of evaluation ensures that students have had at least one evaluation by midpoint in the course. The evaluations are based on actual hours completed. Students have the right to request a copy of their SAP by emailing a request to the campus manager. The Teacher Training Program is currently available at Crystal Lake and Schaumburg locations only.

ATTENDANCE PROGRESS EVALUATIONS

Students are required to attend a minimum of 75 % of the hours possible based on the applicable attendance schedule to be considered maintaining satisfactory attendance progress. Evaluations are conducted at the end of each evaluation period to determine if the student has met the minimum requirements. The attendance percentage is determined by dividing the total hours accrued by the total number of hours scheduled. At the end of each evaluation period, the school will determine if the student has maintained at least 75 % cumulative attendance since the beginning of the course indicates that, given the same attendance rate, the student will graduate within the maximum time frame allowed.

MAXIMUM TIME FRAME

The maximum time is 133% of the course length for min of 75 % attendance, which does not exceed the max amount Department of Education allowed for students to complete each course at satisfactory academic progress is stated below:

Course	Maximum time allowed	Weeks	Scheduled	Hours
Cosmetology/ Barber Full time	35h/w-	1500	Hours	57 2000
Cosmetology/ Barber Full time	30h/w-	1500	Hours	67 2000
Cosmetology/ Barber Part time	25h/w-	1500	Hours	80 2000
Cosmetology/ Barber Part-time	16h/w-	1500	Hours	125 2000
Esthetic Full time	35h/w-	750	hours	28 1000
Esthetic Part time	16 h/w –	750	hours	63 1000
Esthetic Full time	30h/w-	750	hours	33 1000
Time	-25h/w-	750	hours	40 1000

Please note: The maximum time frame provides for minimum attendance requirements. The contracted length of each course allows students personal time frame shall be terminated from the program and clarifies if the student would thereafter be permitted to re-enroll in the program on which they will not be charged. The maximum time allowed for transfer students who need less than the full course requirements or part-time students will be determined based on 75% of the scheduled contracted hours.

Students who exceed the maximum time frame shall be terminated from the program. The student would thereafter be permitted to re-enroll in the program on a cash-pay basis in a manner consistent with the re-enrollment provisions of the institution admissions policy. Students who have not completed the course within the maximum timeframe may continue as a student at the institution on a cash pay basis. A leave of absence will extend the student's contract period and maximum time frame by the same number of days taken for the leave of absence.

ACADEMIC PROGRESS EVALUATION

The qualitative element used to determine academic progress is a reasonable system of grades as determined by assigned academic learning. Students are assigned academic knowledge and a minimum number of practical experiences. Academic learning is evaluated after each unit of study. Practical assignments are evaluated as completed and counted toward course completion only when rated as satisfactory or better. If the performance does not meet satisfactory requirements, it is not counted, and the performance must be repeated. At least two practical comprehensive skills evaluations will be conducted during the study. Practical skills are evaluated according to text procedures and set forth in practical skills evaluation criteria adopted by the school. Students must maintain a written grade average of 75% and pass a FINAL written and practical exam prior to graduation. Students

must make up for failed or missed tests and incomplete assignments. Numerical grades are considered according to the following scale: Excellent A: 93% - 100%; Very Good B: 85% - 92 %; Satisfactory C: 75% - 84%; Unsatisfactory F: 74 % and below

DETERMINATION OF PROGRESS STATUS

The student is meeting both minimum requirements: 75 % attendance standard and the 75% academic standard, at the evaluation point is considered to be making satisfactory progress until the next scheduled evaluation. Students may request to receive a hard copy of their SAP report by emailing the campus manager. The student who does not achieve the minimum standards is no longer eligible for Title IV, unless the student is on warning or has prevailed upon appeal of the determination that has resulted in the status of probation.

WARNING

A student who fails to meet minimum requirements for attendance or academic progress is placed on warning and considered to be making satisfactory academic progress during the warning period. The student will be advised in writing of the actions required to attain satisfactory academic progress by the next evaluation. If at the end of the warning period, the student has still not met both the attendance and academic requirements, he/she may be placed on probation and, if applicable, students may be deemed ineligible to receive Title IV funds. A student may not be granted consecutive warning statuses. If the student loses the eligibility of Title IV due to non-SAP status, the student must make alternative payments to the school or education will be interrupted.

PROBATION

Students who fail to meet minimum requirements for attendance or academic progress after the warning period or previous evaluation period will be placed on probation and are considered to be making satisfactory academic progress while during the probationary period if the student prevails upon appeal of a negative progress determination prior to being placed on probation; and the institution determines that satisfactory academic progress standards can be met by the end of the subsequent evaluation period; or the institution develops an academic plan for the student that, if followed, will ensure that the student is able to meet the institution's satisfactory academic progress requirements by a specific point within the maximum time frame established for the individual student.

Students who are progressing according to their specific academic plan will be considered making Satisfactory Academic Progress. The student will be advised in writing of the actions required to attain satisfactory academic progress by the next evaluation. If at the end of the probationary period, the student has still not met both the attendance and academic requirements required for satisfactory academic progress or by the academic plan, he/she will be determined NOT making satisfactory academic progress and, if applicable, students will not be deemed eligible to receive Title IV funds.

RE- ESTABLISHMENT OF SATISFACTORY ACADEMIC PROGRESS

Students may re-establish satisfactory academic progress and Title IV aid, as applicable, by meeting minimum attendance and academic requirements by the end of the warning or probationary period.

INTERRUPTIONS, COURSE INCOMPLETES, WITHDRAWALS

If the enrollment is temporarily interrupted for a Leave of Absence, the student will return to school in the same progress status as before the leave of absence. Hours elapsed during a leave of absence will extend the student's contract period and maximum time frame by the same number of days taken for the leave of absence and will not be included in the student's cumulative attendance percentage calculation. Students who withdraw or interrupt the program before completion of the course and wish to re-enter the institution will return to the same progress status as when they left. The student has the right to re-enroll or transfer to another location or program only once in a twelve-month period.

APPEAL PROCEDURE

If a student is determined not to be making satisfactory academic progress, the student may appeal the determination within ten calendar days. Reasons for which students may appeal an adverse growth determination include the death of a relative, an injury or illness of the student, or any other allowable unusual or mitigating circumstance. The student must submit a written appeal to the school on the designated form describing why they failed to meet satisfactory academic progress standards, along with supporting documentation of the reasons why the determination should be reversed. This information should include what has changed about the student's situation that will allow them to achieve Satisfactory Academic Progress at the next evaluation point. Appeal documents will be reviewed, and a decision will be made and reported to the student within 30 calendar days. The appeal and decision documents will be retained in the student file. If the student prevails upon appeal, the satisfactory academic progress determination will be reversed, and federal financial aid will be reinstated if applicable.

NONCREDIT, REMEDIAL COURSES, REPETITIONS

Non-credit remedial courses and repetitions do not apply to this academy. For this reason, these items have no effect on the school's satisfactory academic progress standards

TRANSFER HOURS

With regards to Satisfactory Academic Progress, a student's transfer hours will be counted as both attempted and earned hours for the purpose of determining when the proper maximum time frame has been exhausted.

Any person/agency requesting information must do so in writing and this request will be kept on file with a release authorization. Cosmetology and Spa

- A student entering class late due to a medical or legal appointment will be admitted to class by bringing a note/letter documenting the reason for the tardy. The instructor will not repeat or interrupt the ongoing training due to a late arrival.
- Students who call Admissions or notify the teacher regarding being late, will be accepted to attend for the day.
- Whether the tardy is excused or not excused, the student will still be missing the time they are not attending school for their scheduled shift and time personal use policy does apply.
- Each student is personally responsible for notifying their instructor by email directly whenever they plan on being tardy or leaving class early.
- Students are required to catch up on information missed during class on their own. Instructors are required to keep within their scheduled curriculum so they must catch up on missed assignments on their own or repeat the class if they have missed the majority of the information.
- A student who is late returning from their scheduled lunch/break time will be written up the first time and will not be allowed to attend class if the violation is repeated.
- Instructors will also replace tardy students who are scheduled with a client on the clinic floor with another student.
- Excessive tardiness is unprofessional and will result in depletion of student's personal hours and attendance rate. Specific attendance questions can be emailed to: roni@csaeducator.com

CREDIT HOURS

- Students will be given appropriate credit for all clock hours they attend school. Cosmetology and Spa Academy will not provide hours for any student if the student leaves their classroom or clinic floor without permission since the time cannot be accounted for.

Students must be signed in and out for lunch/break by their instructor. The student may be asked to sign his/her name and the time they leave for lunch, as well as the time they come back. Students will participate and complete one-half hour of sanitation daily, 15 minutes at the start of the day and 15 minutes before leaving for the day unless the instructors give further notice. Students will be

graded on sanitation subject each month. This part of the training will help develop skills and habits that will contribute to future success when a student begins their career in the Beauty Industry. Students should also observe the following guidelines: keep equipment intact, clean, and sanitized; keep workstations clean; maintain the lunchroom cleanliness by disposing of all waste and not leaving it “for later”. With no exception, a student is allowed to provide a service in a dirty station with dirty tools.

GRIEVANCE PROCEDURE GUIDELINES

In accordance with the institution's mission statement, the school will make every attempt to resolve any student complaint that is not frivolous or without merit. Complaint procedures will be included in the new student orientation thereby assuring that all students know the steps to follow should they desire to register a complaint at any time. Evidence of the final resolution of all complaints will be retained in school files to determine the frequency, nature, and patterns of complaints for the institution.

The following procedure outlines the specific steps of the complaint process. The student should register the complaint in writing on the designated form provided by the institution within 30 days of the date that the act which is the subject of the grievance occurred.

The complaint form will be given to the school Director. The complaint will be reviewed by management and a response will be sent in writing to the student within 30 days of receiving the complaint. The initial response may not provide for final resolution of the problem but will notify the student of continued investigation and/or actions being taken regarding the complaint. If the complaint is of such nature that it cannot be resolved by the management, it will be referred to an appropriate agency if applicable.

Depending on the extent and nature of the complaint, interviews with appropriate staff and other students may be necessary to reach a final resolution of the complaint.

In cases of extreme conflict, it may be necessary to conduct an informal hearing regarding the complaint. If necessary, management will appoint a hearing committee consisting of one member selected by the school who has had no involvement in the dispute and who may also be a corporate officer, another member who may not be related to the student filing the complaint or another student in the school, and another member who may not be employed by the school or related to the school owners. The hearing will occur within 90 days of the committee appointment. The hearing will be informal with the student presenting his/her case followed by the school's response. The hearing committee will be allowed to ask questions from all parties involved. Within 15 days of the hearing, the committee will prepare a report summarizing each witness's testimony and a recommended resolution for the dispute. School management shall consider the report and either accept, reject, or modify the recommendations of the committee. Corporate management shall consider the report and either accept, reject, or modify the recommendations of the committee. Students must exhaust the institution's internal complaint process before submitting the complaint to the school's accrediting agency, if applicable. The management reserves the right to not follow up with anonymous complaints. management shall consider the report and either accept, reject or modify the recommendations of the committee. Students must exhaust the Academy's internal complaint process before submitting the claim to the Academy's accrediting agency. If a student or staff calls police officials any time, management must be aware of the situation. This must also be documented in writing.

CLASSROOM POLICIES

To make the most out of the learning environment, Cosmetology and Spa Academy has some fundamental guidelines and procedures:

The classroom stations, and all equipment should be kept sanitary, at all times

No sleeping is permitted during lectures, demonstrations, discussions.

Profanity or tantrums will not be tolerated.

Students must be prepared with all equipment, books, and materials needed for class.

Students should remember that the only stupid question is an unasked one.

Since the curriculum builds on previous skills, it is necessary to not miss class during classroom lessons/phases. If a student misses a lesson, he/she is required to follow up with their instructor. The instructor will decide what is necessary for the student to complete. All failed classes must be repeated. Students will be evaluated according to Academy grading procedures.

Each and every student needs to participate in demonstrations designed to make them more proficient in areas of his or her chosen program. Including but not limited to facials, scalp treatments, manicures, pedicures, deep conditioning treatments, eyebrow arching for cosmetology and facials, machines, body treatments, waxing and chemical treatments for Esthetic. A demonstration involves the exchange of services with a partner so that students experience “giving” the service, but more importantly the “feel” of the service.

When a student fails a test, the retake test will pass or fail, with 75% being the highest grade possible.

If a student misses or fails a test, he/she may take or retake it within one week of the original test at the instructor’s discretion.

A test is administered after each chapter or theory lesson is completed.

No student is allowed to perform any services without permission from an instructor.

All non-students/visitors must register at the desk, wear a name tag and wait in the reception area until the student or staff member greets them.

A student is not allowed to teach another student. Instructors should be consulted for extra help so that the same methods and techniques are being practiced.

To protect students, staff and clinic guests all students are required to conduct proper client consultations and document all services performed in the Academy’s record system. The Hold Harmless Agreement form is required for all customers, models and other persons receiving any service at the Academy.

Students may not use the Academy’s office supplies without permission from the manager. This includes but is not limited to the copier, printer, fax machine, scanner, etc. Disciplinary Procedure will be followed for these violations.

For students to gain confidence before they go to the clinic floor, students are required to bring in models to practice under instructor supervision. Esthetics Models will be charged 50% off the student clinic price. The price should be paid before the service is performed. Students will be required to bring models during the clinic phase as well.

Note that “classrooms and service facilities” broadly refers to all institutional facilities rather than only theory classrooms and clinic floors.

CLINIC POLICIES

The stations, and all equipment should be kept sanitary at all times

No sleeping is permitted during lectures, demonstrations, discussions.

Profanity or tantrums will not be tolerated.

Students must be prepared with all equipment, books, and materials needed for clients.

Students should remember that the only stupid question is an unasked one.

Students should ask for assistance when dealing with demanding clients.

Each and every student needs to participate in demonstrations designed to make them more proficient in areas of their chosen program.

All non-students/visitors must register at the desk, wear a name tag and wait in the reception area until a student or staff member comes out.

Students should follow the correct Greeting and Exit Protocol for every client.

Students must bring all the tools that are needed to perform salon services on clients every day. Please keep your beauty tools in the lockers. **No bags are allowed on the clinic floor.**

Students must not refuse or switch a client with another student. Ignoring these policies can result in an immediate suspension or write-up for the day.

If a student is over their contractual agreement (completion date), and requirements for syllabus signoffs are still needed, Cosmetology and Spa Academy is no longer responsible for providing that student with clinic clients. It is the responsibility of the student to provide his/her paying clients until all clinic requirements are met.

Before starting a service, the student must consult first and fill out the Consultation Form. Then the student is required to explain to the instructor what needs to be done and why. The instructor **must** sign the Consultation Form before a student starts the service.

The student must keep in mind that: while working with clients in his/her styling chair/esthetic bed, the student must be focused, and treat their client with the utmost professionalism and importance. The student must be professional and confident while performing services.

The student must keep the conversation professional and in a low tone to build a good business relationship with customers and not bother other students working with clients in proximity to their chair.

A student is not allowed to teach another student. Instructors should be consulted for extra help so that the same methods and techniques are being practiced.

When a student is performing a haircut, every section must be checked by an instructor. When the haircut is done, the student needs to sweep the area first and then ask the instructor to re check again before continuing with styling and drying the hair. The same procedure must be followed for color applications. The instructor must check the completed service(s) once the student believes they are done.

After the service is done, the student must thank the client for coming and then walk him/her to the products area to explain what products the student used and what is recommended for the customer. Then the student must explain the specials for the month and re-book the next appointment with the customer.

Cosmetology students may work on a mannequin if there are no clients in the clinic.

No student is allowed to perform any services without a Consultation form.

Students may not transfer clients without permission of the clinic instructor.

Any student refusing to service a client can result in clocking out for the day; counseling documentation will be placed in the student's file.

To protect students, staff and clinic guests all students are required to conduct proper client consultation and document all services performed on Cosmetology and Spa Academy's record system. The Hold Harmless Agreement form is required for all customers, models and other persons receiving any service at the Academy.

Students may not use the Academy's office supplies. This includes but is not limited to copiers, printers, fax machines, scanners. Disciplinary Procedure will be followed for these violations.

MODEL REQUIREMENTS

Models are required as a part of professional development for various aspects of the educational process, especially during the student salon/spa portion of training. Models will be needed during series phases, and clinic portions of your training. All services provided on models will be at least 50% OFF the regular price for esthetics, and models for lesson series finals in Baber and Cosmetology and Free. The service must be paid for before the service is performed.

FOOD AND DRINK

Due to health and safety standards, and to prevent damage to personal or Academy property, eating, drinking and chewing gum are always prohibited in educational instruction and clinics. Water in a bottle or a closed container is permitted but must be stored in the student's locker.

ANNUAL PLACEMENT RATE GRADUATE RATE AND LICENSURE RATE

This is a brief description of how the Placement Rate, Graduate Rate, and Licensure Rate are calculated based on the Accrediting Agency. The 21 (data) Annual Report is due electronically before Midnight (EST) on November 30, 2022.

Minimum Outcomes Thresholds: NACCAS' Standard require an institution to meet or exceed the following measures of student success: 50% Graduation; 60% Placement; 70% Licensure pass rate

Key Definitions: NACCAS' 21 (data) Annual Report is derived from a single cohort of students – those scheduled to graduate in 2022. NACCAS' graduation, placement, and licensure definitions are described below:

1. Graduation: Based on all students scheduled to graduate from each program in 2022. The scheduled graduation date is a student's most recent contract end date (i.e., the contract end date after all leaves of absence, schedule changes and re-enrollments have been accounted for). A student may count as a graduate if they have completed all applicable graduation requirements at the institution.

2. Placement: Based on graduates from the graduation cohort who are eligible for placement a student may count as placed if they are employed in a field for which their training prepared them prior to November 30, 2022. All graduates must be declared eligible for placement unless they meet one of the following five conditions for ineligibility:

- a. The graduate is deceased
- b. The graduate is permanently disabled
- c. The graduate is deployed for military service/duty
- d. The graduate studied under a student visa and is ineligible for employment in the U.S.
- e. The graduate continued his/her education at an institution under the same ownership (e.g., a graduate of your cosmetology program subsequently enrolled in the teacher training of an institution under the same ownership)

3. Licensure: Based on graduates from the graduation cohort who sat for all parts of their required licensure exam on November 30, 2022. A student in the licensure cohort may count as a "pass" if they pass all required portions of the examination before November 30, 2022. Multiple Campuses: Please note the annual report combines data from the main campus and all additional affiliated locations, as they are considered one institution.

The institution's accrediting agency has allowed flexibilities to the institution in the publication of its student outcome rates if the COVID-19 Pandemic has significantly impacted the ability of students to successfully graduate, sit for licensure and/or obtain employment. Any rates reported below that have been modified in accordance with these flexibilities have been adjusted in one of the following manners as indicated. In addition, the institution must include the following footnotes and indicate the appropriate footnote for each institutional and/or programmatic rate, as applicable

1. Some students who previously enrolled at this institution and were unable to successfully graduate, sit for licensure and/or obtain employment attested that they were unable or unwilling to do so specifically due to the COVID-19 Pandemic. Students who made such attestations have been excluded from the calculation of this rate.

2. As State and/or local restrictions with respect to the COVID-19 Pandemic have significantly impacted the ability of this institution's students to sit for licensure and/or obtain employment, this rate has not been published.

Per our reporting requirements with the National Accrediting Commission of Career Arts & Sciences Agency (NACCAS) for the annual report period of 19-20, our rates are as follows: GRADUATION RATE 90.27 % PLACEMENT RATE 35.50% LICENSURE RATE 90.32%

Title IV Financial Aid consists of two types of aid; grants and loans.

LOAN REPAYMENT TERMS AND CONDITIONS

Loans through the Direct Loan Program, if applicable, must be paid back according to the terms and conditions of the borrower's promissory note.

You must pay the Loans Back - Understanding Delinquency

It's important to pay the amount shown on your bill—and to pay by the due date. The **first day** after you miss a student loan payment, your loan becomes past due, or delinquent. Your loan account remains delinquent until you repay the past due amount or make other arrangements, such as deferment or forbearance, or changing repayment plans. If you are delinquent on your student loan payment for 90 days or more, your loan servicer will report the delinquency to the three major national credit bureaus. If you continue to be delinquent, your loan can risk going into default. Don't ignore your student loan payments—defaulting on your loan can have serious consequences. Learn more on how to avoid default. <https://studentaid.gov/manage-loans/default/avoid>

CONSEQUENCES OF DEFAULT

The consequences of defaulting can not only impact your ability to borrow but can impact your finances as well. Consequences include the following:

The entire unpaid balance of your loan and any interest you owe becomes immediately due

You can no longer receive deferment or forbearance, and you lose eligibility for other benefits, such as the ability to choose a repayment plan.

You lose eligibility for additional federal student aid.

The default is reported to credit bureaus, damaging your credit rating and affecting your ability to buy a car or house or to get a credit card.

It may take years to reestablish a good credit record.

You may not be able to purchase or sell assets such as real estate.

Your tax refunds and federal benefit payments may be withheld and applied toward repayment of your defaulted loan (this is called “Treasury offset”).

Your wages may be garnished. This means your employer may be required to withhold a portion of your pay and send it to your loan holder to repay your defaulted loan.

Your loan holder can take you to court.

You may be charged court costs, collection fees, attorney’s fees, and other costs associated with the collection process.

Your school may withhold your academic transcript until your defaulted student loan is satisfied. The academic transcript is the property of the school, and it is the school's decision—not the U.S. Department of Education’s or your loan holder’s—whether to release the transcript to you.

Please be aware that the student borrower is obligated to repay the full amount of the loan even if the student borrower does not complete the program, does not complete the program within the regular time for program completion, is unable to obtain employment upon completion, or is otherwise dissatisfied with or does not receive the educational or other services that the student borrower purchased from the school.

Loan must be paid back; Pell grant does not need to be paid back.

Work with your loan servicer to choose a federal student loan repayment plan that’s best for you. To make your payments more affordable, repayment plans can give you more time to repay your loans or be based on your income. Although you may select or be assigned a repayment plan when you first begin repaying your student loan, you can change the payment plans at any time. Contact your loan servicer if you would like to discuss repayment plan options or change your repayment plan. You can get information about all the federal student loans you have received and find the loan servicer for your loans by logging into *Before you contact a loan servicer you may consider checking Loan Simulator at <https://studentaid.gov/loan-simulator/>*

To get the most realistic results, provide complete and accurate information when using *Loan Simulator*. Keep in mind, this tool can’t predict your future payments with 100% accuracy. To make these predictions, *Loan Simulator* makes several assumptions as it calculates monthly repayment amounts. Keep in mind that the Results of *Loan Simulator* are for informational purposes only and should not be considered financial advice. You are encouraged to review all available options and make decisions about borrowing and repayment that align with your individual goals.

National Student Loan Data System - NSLDS

Student can get all their loan history by log in to https://nsldsfa.ed.gov/nslds_SA/

The National Student Loan Data System (NSLDS) is the U.S. Department of Education's (ED's) central database for student aid. NSLDS receives data from schools, guarantee agencies, the Direct Loan program, and other Department of ED programs. NSLDS Student Access provides a centralized, integrated view of Title IV loans and grants so that recipients of Title IV Aid can access and inquire about their Title IV loans and/or grant data. Please contact The Financial Aid Director if you will have any question about your loan and borrower's rights and responsibilities at fadassistant@csaeducator.com

Here are some general important questions you should know about your Subsidized Loans

Subsidized and unsubsidized loans are federal student loans for eligible students to help cover the cost of higher education at a four-year college or university, community college, or trade, career, or technical school. The U.S. Department of Education offers eligible students at participating schools Direct Subsidized Loans and Direct Unsubsidized Loans. (Some people refer to these loans as Stafford Loans or Direct Stafford Loans.)

What's the difference between Direct Subsidized Loans and Direct Unsubsidized Loans?

In short, Direct Subsidized Loans have slightly better terms to help students with financial needs.

Who can get Direct Subsidized Loans?

Direct Subsidized Loans are available to undergraduate students with financial need.

How much can you borrow?

Your school determines the amount you can borrow, and the amount may not exceed your financial need.

Who will pay the interest?

The U.S. Department of Education pays the interest on a Direct Subsidized Loan

- while you're in school at least half-time,
- for the first six months after you leave school known as grace period, and
- during a period of deferment (a postponement of loan payments).

Is there a time limit on how long I can receive loans?

If you are a first-time borrower on or after July 1, 2013, there is a limit on the maximum period (measured in academic years) that you can receive Direct Subsidized Loans. This time limit does not apply to Direct Unsubsidized Loans or Direct PLUS Loans. If this limit applies to you, you may not receive Direct Subsidized Loans for more than 150 percent of the published length of your program. This is called your "maximum eligibility period." Your maximum eligibility period is generally based on the published length of your current program. The periods of time that count against your maximum eligibility period are periods of enrollment (also known as "loan periods") for which you received Direct Subsidized Loans. For example, if you are a full-time student and you receive a Direct Subsidized Loan that covers the fall and spring semesters (a full academic year), this will count as one year against your maximum eligibility period. If you receive a Direct Subsidized Loan for a period of enrollment that is shorter than a full academic year, the period that counts against your maximum usage period will generally be reduced accordingly.

Can I lose eligibility for additional Direct Subsidized Loans?

After you have received Direct Subsidized Loans for your maximum eligibility period, you are no longer eligible to receive additional Direct Subsidized Loans. However, you may continue to receive Direct Unsubsidized Loans.

Could I ever be responsible for paying interest on Direct Subsidized Loans?

Certain types of enrollments may cause you to become responsible for the interest that accrues on your Direct Subsidized Loans when the U.S. Department of Education usually would have paid it. This is called losing interest subsidy. The enrollment patterns under which you would lose interest subsidy are described below. Your federal loan servicer will notify you if you become responsible for paying the interest on your Direct Subsidized Loans.

How does interest accrue on a loan?

Interest starts to **accrue** (grow) from the day your **loan** is disbursed (sent to you or your school). At certain points in time—when your separation or grace period ends, or at the end of forbearance or deferment—your Unpaid **Interest** may capitalize. That means it is added to your **loan's** Current Principal.

EXIT COUNSELING

Exit Counseling is required when you graduate, leave school, or drop below half-time enrollment. Exit Counseling provides important information to prepare you for repaying your federal student loan(s).

At the end, you'll need to provide the name, address, email address, and telephone number for your closest living relative, two references who live in the U.S., and your current or expected employer, if known.

The purpose of the Exit Counseling is to ensure you understand your student loan obligation and are prepared for repayment. You'll learn about what our federal student loan payments will look like after school. We'll recommend a repayment strategy that best suits your plans and goals. You can complete the exit counseling at <https://studentaid.gov/exit-counseling/>

You can complete the exit counseling by yourself or in the office with our financial aid assistance or the manager. If you need help or have questions regarding exit counseling, please reach out to fadassistant@csaeducator.com.

PLUS, CREDIT COUNSELING

PLUS Credit Counseling will help students and parents understand the obligations associated with borrowing a PLUS loan and assist them in making careful decisions about taking on student loan debt.

PLUS Credit Counseling is required if the U.S. Department of Education has informed you that you have an adverse credit history and you have: Obtained an endorser or documented extenuating circumstances to the satisfaction of the U.S. Department of Education

PLUS Credit Counseling can be completed voluntarily at any time. CSA - PRE-DISPUTE ARBITRATION AGREEMENT

As a condition for enrollment in Cosmetology and Spa Academy, students enter into an enrollment agreement which provides that all disputes between a student and the school will be resolved by binding arbitration.

Students thus give up their right to go to court to assert or defend their rights under their enrollment agreement (except for matters that may be taken to small claims court).

- A student's rights will be determined by a neutral arbitrator and not a judge or jury.
- Students are entitled to a fair hearing, but the arbitration procedures are simpler and more limited than rules applicable in court.
- Arbitrator decisions are as enforceable as any court order and are subject to very limited review by a court. Notwithstanding the student's agreement to resolve any disputes with Cosmetology and Spa Academy by binding arbitration: • The School does not require a federal student loan borrower to participate in arbitration or any internal dispute resolution process offered by the institution prior to filing a borrower defense to repayment application with the U.S. Department of Education pursuant to 34 CFR § 685.206(e);
- The school does not, in any way, require students to limit, relinquish, or waive their ability to pursue filing a borrower defense claim, pursuant to 34 CFR § 685.206(e) at any time; and
- Any arbitration required by the pre-dispute arbitration agreement with the school tolls the limitations period for filing a borrower defense to repayment application pursuant to 34 CFR § 685.206(e)(6)(ii).

Binding arbitration with the school will be conducted by the American Arbitration Association (the "AAA"), under its Consumer Arbitration Rules.

You may begin the arbitration process by getting together the following documents:

- Notice of Arbitration and/or a Statement of Claim explaining the nature of the dispute and the relief requested
- The arbitration agreement that refers to the AAA
- Any supporting documents or exhibits
- Appropriate filing fee

When you have all the above documents ready, you can file your case in any one of the following ways: • Online: <https://apps.adr.org/webfile>

- Email box: casefiling@adr.org
- Facsimile: 1 877-304-8457 or +1 212-484-4178 (fax number outside the US)
- Mail: American Arbitration Association—Case Filing Services, 1101 Laurel Oak Road, Suite 100, Voorhees, NJ 08043, USA

CLASS ACTION WAIVER

As a further condition for enrollment, students also agree that any dispute or claim that they may bring will be brought solely in the student's individual capacity, and not as a plaintiff or class member in any purported class action, representative proceeding, mass action or consolidated action.

As an alternative process, students may seek redress under the school's grievance procedure described above, which includes the ability to resolve disputes through a binding arbitration process. Students may also submit complaints to the school's accreditor, state licensing agency, and the U.S. Department of Education as described above and in the school catalog.

For more information about the school's arbitration and School's class action waiver process please contact: Ms. Veronica fadassistant@csaeducator.com , phone 815 201 2210

INSTITUTION REFUND POLICY AND CANCELLATION POLICY

If a student does not complete a course of study, the following Refund Policy shall apply. The cancellation notice must be in writing and given to the registered agent, if any, or managing employees of the school. This policy applies to all termination for any reason (s), by either party, including student decision to withdraw, course or program cancellation and/or school closure, and complies with the mandated State Refund Policy. Any monies due to Student shall be refunded within 45 calendar days after the date of notice of the student's cancellation or the date that the school determines that the student has officially or unofficially withdrawn, whichever shall occur on the earlier date. School shall, when a student gives written notice of cancellation, provide a refund in the amount of at least the following:

When Cosmetology and Spa Academy does not accept an applicant, the applicant shall be entitled to a refund of all monies paid ; • **BUYER'S RIGHT TO CANCEL: The student or legal guardian has the right to cancel in writing the initial enrollment agreement until midnight of the fifth business day after the student has been enrolled and receive a refund for all money paid regardless of whether the student has actually started training; and if notice of the right to cancel is not given to any prospective student at the time the enrollment agreement is signed, then the student has the right to cancel the agreement at any time and receive a refund of all monies paid to date within 10 days of cancellation.**

When notice of cancellation is given after the fifth day following enrollment but before completion of the student's first day of class attendance, Cosmetology and Spa Academy may retain no more than the application and registration fee, plus the cost of any books or materials provided by the school.

When notice of cancellation is given after the student's completion of the first day of class attendance but prior to the student's completion of 5% of course instruction, Cosmetology and Spa Academy may retain the application and registration fees and an amount not to exceed 10% of the tuition and other instructional charges or \$300, whichever is less, plus the cost of any books or materials provided by the school.

When a student has completed 5% or more of the course of instruction, Cosmetology and Spa Academy may retain the application and registration fees and the cost of any books or materials provided by the Cosmetology and Spa Academy, but shall refund a part of the tuition and other instructional charges in accordance with the requirements of the CS Academy's regional or national accreditation agencies, if any, or rules that the Department of Education shall promulgate for purposes of this section;

For a student on an approved Leave of Absence who notifies Cosmetology and Spa Academy in writing that he / she will not be returning, the date of withdrawal shall be the earlier date of expiration of the Leave of Absence or the date the student notified Cosmetology and Spa Academy in writing that he / she will not be returning.

For students who do not return from Leaves of Absence, the documented date of return will be used as the termination date; Students who terminate enrollment before completion are charged a \$150 termination fee.

If Cosmetology and Spa Academy closes, cancels, or discontinues a program, the student who has not started classes will receive a full refund of all monies paid. If the school closes, cancels or discontinues a program, the student shall be entitled to

receive from the school such refund or partial refund of the tuition, fees, and other charges paid by the student or on behalf of the student as is provided under the rules promulgated by the Department.

In the case that a student cannot continue instruction because of illness, a disabling accident, or other circumstances the student, or his/her guardian must immediately contact the admissions office for an adjustment. Adjusted Refund calculations may apply to help a student's situation.

OFFICIAL WITHDRAWAL: If a student notifies Cosmetology and Spa Academy of his / her cancellation in a written and signed document, the document must be received within five business days of the student's last day of attendance; For purpose of refund calculations, the cancellation date shall be the last day of attendance. For all types of official cancellations or withdrawals, the cancellation date will be determined by the postmark or written notification, or the date said information is delivered to the school in person.

UNOFFICIAL WITHDRAWALS: If a student does not attend for 14 consecutive calendar days, and Cosmetology and Spa Academy and/or student does not make a verbal or written confirmation to continue training, the student may be administratively terminated. Cosmetology and Spa Academy will determine the status of the student after at least 14 consecutive days of absence from the last day of attendance. The unexplained absence of a student from a school for more than 30 consecutive calendar days shall constitute constructive notice of cancellation to the school. For refund calculations, the cancellation date will be the last day of attendance. Unofficial withdrawal for clock hours students is determined by the school through monitoring clock hour attendance at least every thirty days.

All extra costs of textbooks, kits, and training materials are non-refundable items. Refund calculations will be based on **class scheduled hours; Class scheduled – identify TOTAL hours per week the student is scheduled to attend.**

The school refund policy is the same as the relevant State Refund Policy and shall apply after the return of Title IV Funds calculation has been made, if applicable, to remaining tuition payments once the student has started actual class attendance. This policy will apply even in the situation(s) when a student will be expelled from the school due to reasons determined by the school. The ban on advisory board compensation: Employees of the Institution will not receive anything of value from a lender, guarantor, or group in exchange for serving on an advisory committee. They may, however, accept reimbursement for reasonable expenses incurred while serving in this capacity.

Written acknowledgment is not necessary if a refund has been mailed to the student within the 15 calendar days.

- Deposits or down payments, besides registration fee, shall become part of the tuition

Each student and former student shall be entitled to receive from the school that the student attends or attended an official transcript of all hours completed by the student at that school for which the applicable tuition, fees, and other charges have been paid in full, together with the grades earned by the student for those hours, provided that a student who withdraws from or drops out of a school, by written notice of cancellation or otherwise, shall not be entitled to any transcript of completed hours following the expiration of the 7-year period that began on the student's first day of attendance at the school. A reasonable fee, not to exceed \$ 2 may be charged by the school for each transcript after the first free transcript that the school is required to provide to a student or former student. All charges to the school must be paid in full before any transcript request is accepted. Schools may make refunds which exceed those required by this section. If the school closes, each student shall be provided an official transcript of all hours earned. If school closes, each student shall be given a refund prorated to at least reflect the percentage of time remaining to complete the course of instruction.

TITLE IV REFUND POLICY

Our schools calculate an institutional refund for all students who leave school prior to their scheduled graduation date.

In addition, if a student has received Federal Title IV funds, a “Return to Title IV Funds Calculation” must be done when

- a. The student is a recipient of a Federal Pell Grant or a Federal Direct Student Loan and
- b. The student must have completed less than 60% of the period of enrollment for which he/ she was charged. If conditions (a) and (b) are met, Return of Title IV Funds will be calculated according to the following fraction: Total hours scheduled to be completed/Hours in the payment period for which the student was charged. The resulting percentage from the above fraction is then multiplied by the total tuition assessed.

*Any drops due to COVID 19 will follow the current DOE regulations on Return to Title IV funds.

The amount of Title IV aid that a student has not earned is then returned to the Title IV programs. The school must return the amount of Title IV funds for which it is responsible no later than 45 days after the date of determination. After the 60% point in the payment period or period of enrollment, a student has earned 100% of the Title IV funds the student was scheduled to receive during the period. For a student who withdraws after the 60% point-in-time, there are no unearned funds. However, a school must still determine whether the student is eligible for a post-withdrawal disbursement (PWD).

The institution will determine the date of withdrawal based on the following procedure:

OFFICIAL WITHDRAWAL: If a student notifies the school of his/her cancellation in a written and signed document, the document must be received at the campus manager's office, within five business days of the student's last day of attendance. The official date of withdrawal will be the student's last date of attendance.

UNOFFICIAL WITHDRAWALS: If a student does not attend for 14 consecutive calendar days, and the student does not make a verbal or written confirmation to continue training, the school is expected to have determined whether the student intends to return to classes or withdraw. If the student is eventually determined to be a withdrawal, the end of the 14-day period begins the time frame for completing an R2T4 calculation. The official date of withdrawal will be the student's last date of attendance per attendance records.

The institution will compare the amount earned with the amount disbursed. If the amount of aid disbursed exceeds the amount earned, this amount of Title IV aid must be returned in the following order:

Order of return of Title IV funds: A school must return Title IV funds to the programs from which the student received aid during the payment period or period of enrollment as applicable, in the following order, up to the net amount disbursed from each source: ♦ Unsubsidized Direct Loans (other than Direct PLUS Loans) ♦ Subsidized Direct Loans ♦ Direct PLUS Loans ♦ Federal Pell Grants

The institution allocates the responsibility for returned or unearned aid between the school and the student according to the portion of disbursed aid that could have been used to cover institutional charges and the portion that could have been disbursed directly to the student once institutional charges were covered.

The institution and the student must then distribute the unearned Title IV aid back to the Title IV programs. After this process has been completed, the institution will then perform the calculation of a student refund.

If a student is on official LOA, no Title IV refund is required. If a student did not receive all the funds earned, the student might be due to a post withdrawal disbursement. (PWD). A post-withdrawal disbursement must be made within 180 days of the date the institution determines that the student withdrew. For any amount of a post-withdrawal grant disbursement not credited to the student's account to cover allowable charges, the school must make the disbursement as soon as possible but no later than 45 days after the date of the school's determination that the student withdrew (no confirmation from the student is required). A school must notify a student, or parent for a Direct Parent PLUS Loan, in writing prior to making any post withdrawal disbursement of loan funds, whether those loan funds are to be credited to the student's account or disbursed directly to the student (or parent). The information provided in this notification must include the information necessary for the student, or parent for a Direct Parent PLUS Loan, to make an informed decision as to whether the student or parent would like to accept any disbursement of loan funds and must be provided within 30 days of the date of a school's determination that a student has withdrawn allowing the student 14 days to respond. In addition, the notice must request confirmation of any post-withdrawal disbursement that the student or parent, as applicable, wishes the school to make. If the post- withdrawal disbursement includes loan funds, the student may choose to decline the loan funds so as not to incur additional debt. If the notice

from the student or parent for Plus loan is received within the time frame, Cosmetology and Spa Academy will apply all post withdrawal disbursements to the student's account first. If R2T4 calculations or post withdrawal disbursements result in credit balance on the student's account, the school will disburse the funds to the student's account within 14 days after the calculations of R2T4 is completed. If a student (or parent on the student's behalf) receives excess FSA program funds, Cosmetology and Spa Academy may return the portion of the excess equal to the lesser of: (1) institutional charges multiplied by the unearned percentage of the fund; (2) the entire amount of excess funds. Cosmetology and Spa Academy must return this amount even if it did not keep this amount of the student's FSA program funds. Any amount of unearned grant funds that must be returned is called an overpayment.

The requirements for FSA program refunds, when withdrawn, are separate from any refund policy that Cosmetology and Spa Academy may have. For this reason, the student may still owe funds to Cosmetology and Spa Academy to cover unpaid institutional charges. If the R2T4 calculations result in an amount of funds to be returned that exceeds the school's portion, the student must pay some funds. Cosmetology and Spa Academy will charge the student for any FSA program funds that CSA was required to return. The Academy's Refund Policy is published in the student catalog and a summary of it is also included in the Enrollment Agreement. Also printed in this Catalog are the requirements and procedures for officially withdrawing from the Academy. For any additional questions about FSA program funds, students may call the Federal Student Aid Information Center at 1-800-

FED AID or schedule a meeting with the Financial Aid Directory sending a request to fadassistant@csaeducator.com

TITLE IV CODE OF CONDUCT

Colleges and other schools participating in any of the Title IV Loan Programs are required by the Department of Education to develop, publish, and enforce a code of conduct.

The following Code of Conduct applies to all officers, employees, and agents of the Cosmetology & Spa Academy:

- Ban on revenue-sharing agreements: neither the Cosmetology & Spa Academy, nor any of its officers, employees, or agents will enter into any revenue-sharing arrangements with any lender, which is defined by the Higher Education Opportunity Act (HEOA) of 2008, amending the Higher Education Act of 1965, Pub.L. #110-315, as any arrangement between a college and a lender that results in the lender paying a fee or other benefits, including a share of its profits to the College, or its officers, employees, or agents, as a result of the college recommending the lender to its students or families of those students.
- Ban on gifts: Financial Aid and office employees (or employees who otherwise have responsibilities on education loans or financial aid) will not accept gifts from any lender, guaranty agency, or loan service. A "gift" is defined as any gratuity, favor, discount, entertainment, hospitality, loan, or other item having monetary value of more than the minimum amount. This prohibition is not limited just to those providers of Title IV loans but includes lenders of "private education loans" as well. HEOA does provide for some exceptions related to types of activities or literature. These include: Brochures or training material related to default aversion or financial literacy; food, training or informational materials as part of training as long as those same terms are provided to all students at the institution; favorable terms and benefits to the students employed by the institution as long as those same terms are available to all students at the institution; entrance and exit counseling as long as the institution's staff are in control, and they do not promote the services of a certain lender; philanthropic contributions from a lender, guarantee agency, or loan servicer unrelated to education loans; state education, grants, scholarships, or financial funds administered by or on behalf of the State.

Ban on contracting arrangements: Financial Aid and Office employees (or employees who otherwise have responsibilities on education loans) will not accept any fee, payment, or financial benefit as compensation for any consulting arrangement or contract to provide services to or on behalf of a lender relating to education loans.

The prohibition against steering borrowers: The Institution and its officers, employees, or agents will not steer borrowers to lenders, or delay loan certifications. This prohibition includes assigning any first-time borrower's loan to a particular lender as part of the award packaging process through other methods.

Prohibition on offers of funds for private loans: The Institution and its officers, employees or agents will not request or accept any agreement or offer of funds for private loans. This prohibition includes any offer of funds for loans to students at the institution, including funds for an opportunity pool loan, in exchange for providing concessions or promises to the lender for a specific number of loans, or inclusion on a preferred lender list.

Ban of staffing support: The Institution and its officers, employees, or agents will not request or accept any assistance. Drug & Alcohol Health Risks

Alcohol: People drink to socialize, celebrate, and relax. Alcohol often has a strong effect on people—and throughout history, people have struggled to understand and manage alcohol’s power. Why does alcohol cause people to act and feel differently? How much is too much? Why do some people become addicted while others do not?

Alcohol’s effects vary from person to person, depending on a variety of factors, including:

- How much you drink
- How often you drink
- Your age
- Your health status
- Your family history

While drinking alcohol is itself not necessarily a problem—drinking too much can cause a range of consequences and increase your risk for a variety of problems.

Cocaine: Cocaine is a powerfully addictive stimulant drug. Cocaine increases levels of the natural chemical messenger dopamine in brain circuits controlling pleasure and movement. This flood of dopamine ultimately disrupts normal brain communication and causes cocaine's high. Short-term effects include constricted blood vessels, nausea, faster heartbeat, extreme happiness and energy, irritability and paranoia. Long-term effects include nosebleeds, severe bowel decay, higher risk of contracting HIV, hepatitis C, and other bloodborne diseases, malnourishment, restlessness, and severe paranoia with auditory hallucinations. A person can overdose on cocaine, which can lead to death.

Marijuana: Marijuana contains the mind-altering chemical THC and other related compounds. THC over-activates certain brain cell receptors, resulting in effects such as altered senses, changes in mood, impaired body movement, difficulty with thinking and problem-solving, and impaired memory and learning. Marijuana use can have a wide range of health effects, including hallucinations and paranoia, breathing problems, and possible harm to a fetus's brain in pregnant women. Marijuana use can cause some very uncomfortable side effects, such as anxiety and paranoia and, in rare cases, extreme psychotic reactions. Marijuana use can lead to a substance use disorder, which can develop into an addiction in severe cases.

Hallucinogens and Dissociative Drugs: Hallucinogens and dissociative drugs—which have street names like acid, angel dust, and vitamin K—distort the way a user perceives time, motion, colors, sounds, and self. These drugs can disrupt a person's ability to think and communicate rationally, or even to recognize reality, sometimes resulting in bizarre or dangerous behavior. Hallucinogens such as LSD, psilocybin, peyote, DMT, and ayahuasca cause emotions to swing wildly and real-world sensations to appear unreal, sometimes frightening. Dissociative drugs like PCP, ketamine, dextromethorphan, and Salvia divinorum may make a user feel out of control and disconnected from their body and environment. In addition to their short-term effects on perception and mood, hallucinogenic drugs are associated with psychotic-like episodes that can occur long after a person has taken the drug, and dissociative drugs can cause respiratory depression, heart rate abnormalities, and a withdrawal syndrome.

Methamphetamine: The abuse of methamphetamine—a potent and highly addictive stimulant—remains an extremely serious problem in the United States. The consequences of methamphetamine abuse are terrible for the individual—psychologically, medically, and socially. Abusing the drug can cause memory loss, aggression, psychotic behavior, damage to the cardiovascular system, malnutrition, and severe dental problems.

Methamphetamine abuse has also been shown to contribute to increased transmission of infectious diseases, such as hepatitis and HIV/AIDS.

Reasonable Search:

To ensure that illegal drugs and alcohol do not enter or affect the school, Cosmetology and Spa Academy reserves the right to search all vehicles, containers, lockers, or other items on school property in furtherance of this Policy. Individuals may be requested to display personal property for visual inspection upon the school's request. Searches will be conducted only where Cosmetology and Spa Academy has reason to believe that the student has violated the School's Policy. Failure to consent to a search or display of personal property for visual inspection will be grounds for discipline, up to and including termination from the program or denial of access to school premises. Searches for a student's personal property will take place only in the student's presence. All searches under this policy will occur with the utmost discretion and consideration for the student involved. Individuals may be required to empty their pockets, but under no circumstances will a student be required to remove articles of clothing to be physically searched.

Actions Required of Employees or Students:

If an employee or student suspects that she/he has a substance abuse problem, the employee or student is expected to contact a counselor acceptable to the Cosmetology and Spa Academy. Any employee or student who voluntarily seeks assistance or rehabilitation for drug or alcohol misuse prior to being subject to testing under this policy shall not be subject to disciplinary action for violation of the Policy, if the employee or student continues to participate satisfactorily in the counseling or rehabilitation program. The employee or student must obtain a work release from the counselor or treatment provider before returning to work or school. Any investigation by law enforcement or conviction for Controlled Substance or Alcohol activity may be cause for dismissal from employment or school. Failure to report any conviction for illegal drug use or alcohol misuse to Cosmetology and Spa Academy may result in immediate termination from employment or school attendance.

The use of prescription or over the counter medications that may impair an employee or student's ability to safely or adequately perform his/her duties must be reported to the employee's or student's supervisor. Some medication use may require reassignment or temporary leave of absence without pay. Employees and students must take all medication as directed on the medication label and must heed any warnings listed on the medication's label.

What is the Disciplinary Action that the Academy reserves the right to apply?

A prospective employee/applicant who has a positive test or "refusal to test" may not be considered for employment. An employee who violates this Cosmetology and Spa Academy policy may be immediately removed from duty and subject to disciplinary action up to and including termination.

A prospective student/applicant who has a positive test or "refusal to test" may not be further considered for enrollment to Cosmetology and Spa Academy. Any current student who has a positive test may be required to reimburse Cosmetology and Spa Academy for the cost of the test. Students who violate this policy may be put on permanent probation and are subject to monthly follow-up drug and/or alcohol tests, at the student's expense.

A student's First Violation may result in immediate removal from class attendance, until the student can pass a "return to duty" drug and/or alcohol test, at the student's expense.

A student's Second Violation may result in immediate termination from CSA. A student may apply for re-entry to school after they have been evaluated for substance abuse. The written notice must be provided by the counselor or the doctor before the students are readmitted. The release should document the student's compliance and participation with all counseling or treatments recommended by the substance abuse counselor. The student must then pass a return to duty drug and/or alcohol test at student expense.

A student's Third Violation may result in immediate termination from school, and he/she will not be eligible for reentry.

Employees and students who violate this policy by illegally selling, manufacturing or distributing controlled substances or alcohol may be terminated from employment or enrollment.

Drug Testing Circumstances:

Pre-employment or Pre-enrollment Procedures: Prospective employees or students may be asked to submit to a drug test at CSA.

Employment or acceptance/enrollment at Cosmetology and Spa Academy will be offered to those who successfully pass the pre-employment or pre-enrollment drug test. Refusal to consent to a pre-employment or pre-enrollment drug test, or Positive, Adulterated or Substituted test results may terminate any action towards permanent employment or enrollment as a student.

Post-Accident Tests: Cosmetology and Spa Academy may require Drug and/or Alcohol testing of any employee or student involved in an on-the-job or in-school accident/injury where the following occurs:

- A fatality,
- An injury to an employee, student, client or other individual that requires medical attention away from the school or accident scene, or
- Damage to school property that exceeds \$500.00.

Post-accident testing may be required of any individual whose actions or inaction could have reasonably contributed to the cause of the accident.

Reasonable Suspicion: Reasonable suspicion Drug and/or Alcohol testing may be done in cases where there is a reasonable belief by a supervisor that an employee or student may be using a Controlled Substance, using alcohol while at work, or reporting to work under the influence of Alcohol or a Controlled substance, using prescription drugs illegally or any other violation of school policy. Reasonable suspicion or For-Cause tests may be required when there is any of the following:

1. Observable phenomena (actual use, possession, odors, etc.);
2. Abnormal behavior or physical characteristics; or
3. A drug-related investigation, arrest or conviction or an investigation of theft.

Random Testing: unannounced random Drug and/or Alcohol Testing may be conducted on all employees or students and will be administered by a third-party administrator.

Selection for random testing will be computer generated. All employees/students will have an equal chance of selection in each selection period.

Unit or Blanket Testing: Drug and/or Alcohol testing of all company employees/students or all employees/students in one location or job category may be conducted at the discretion of Cosmetology and Spa Academy

Return to Duty Testing: The test result must be negative before the student/employee can return to duty or attend class. **Follow-up Testing:** After a violation of this policy and return to duty, an employee or student is subject to unannounced Drug and/or Alcohol testing, the schedule of follow-up testing will be determined by the counselor or Cosmetology and Spa Academy. **Refusal of Testing:** A refusal of testing will be treated as a positive test.

How Can Identify Abusive Behaviors?

The following information will serve as a simple guideline that may help to indicate that you or someone else may be having default with substance abuse.

Abusive behavior varies with the user; however, in general actions will manifest themselves in a person’s life either socially, mentally, and/or physically. Alcohol is the most widely abused drug in the United States; however, indicators show that there are growing trends in the area of abuse of over-the-counter medications and prescription drug abuse. Persons who are under the influence of drugs and alcohol tend to display behaviors such as certain physical symptoms including but not limited to: reduced or slow motor skills, either increased or decreased verbal interaction, verbal skill depletion,

increased or decreased physical contact, loss of or increased appetite, and aggressive behavior. Additionally, persons abused may have social or economic issues that arise due to the use and/or abuse of these substances. There are also health risk indicators that may be helpful in the identification of abusive behavior. The brain is affected heavily by drugs and alcohol; it affects the ability to think and respond quickly. People also tend to have issues with depression, paranoia, convulsions, comas, and even

death can result. Not only does the person using the substance subject him or herself to all sorts of health risks, drug and alcohol abuse can, and in many cases does, cause grief and discomfort to innocent people.

How To Deal with Persons Under the Influence?

Because of the different reactions that different people display or manifest when under the influence, all employees/students are advised to use caution when dealing with such a person. It is recommended that documentation should be provided by person(s) with direct involvement in the incident and/or accident resulting from the use of a controlled substance of the person(s). A report must be filed with the police station.

Medical Review Officer (MRO):

In the case of a Positive, Adulterated, Substituted or Invalid test result, the employee or student or prospective employee or student may have the right to discuss and explain the results, including the right to advise the MRO of any medication prescribed by his/her physician, which may have affected the results of the test.

Contesting a Test Result:

If an employee, student or applicant believes the laboratory analysis is in error, he/she will have 72 hours to request the re-analysis of the original urine specimen that was verified as positive, adulterated or substituted. The cost of re-analysis is at the employee or student expense. If the secondary laboratory does not detect the same controlled substance, the individual may be reimbursed the cost of re analysis.

All information, interviews, reports, statement memoranda and drug test results, written or otherwise, received by the Cosmetology and Spa Academy as part of this drug testing program are confidential communications. Federal, State and Local Penalties- Punishable Law

Local, state, and federal laws exist that may be used to punish violators. Penalties can range from suspension, revocation or denial of a driver's license to 20-50 years' imprisonment without benefit of parole. Property may be seized, or community services and/or restitution may be mandated.

Overview of Federal Controlled Substance Penalties

The Controlled Substances Act (CSA) places all substances which were in some manner regulated under existing federal law into one of five schedules. This placement is based upon the substance's medical use, potential for abuse, and safety or dependence liability. The Act also provides a mechanism for substances to be controlled (added to or transferred between schedules) or decontrolled (removed from control). The procedure for these actions is found in Section 201 of the Act (21U.S.C. §811).

The CSA provides penalties for unlawful manufacturing, distribution, and dispensing of controlled substances. The penalties are basically determined by the schedule of the drug or other substance, and sometimes are specified by drug name, as in the case of marijuana. As the statute has been amended since its initial passage in 1970, the penalties have been altered by Congress. The following charts are an overview of the penalties for trafficking or unlawful distribution of controlled substances.
